SEE A TYPICAL PENNSYLVANIA DUTCH FARM - IN OPERATION!

The Amish Farm & House, a replica of an Old Order Amish farmstead, is presented for your delight and education. You must allow at least 1 1/4 hours to enjoy the conducted lecture tour thru the ten room house, and to walk thru the buildings & farm.

Everybody enjoys babies - you may see 10 piglets nursing, tiny white fur covered rabbits, playful kittens, frisky calves and lambs, or fowl, such as chicken, guinea, duck or goose pecking a hole thru the shell of their eggs.

School, scout, and bus groups often bring their lunch - a free picnic area is yours to use. The last Thursday and Friday of April are our annual Sheep Shearing Days - it is most interesting - 10:00 a.m. to noon. Conestoga wagon rides available.

Early 1976 AF&H admission will continue at \$2.20; 6 thru 12 years 85¢; under 6 no charge, except in groups of youngsters. Inflation may require price changes. Special rates for prearranged groups. Closed only on Thanksgiving, Christmas and New Years. Open Summer 8:30 to 8:00, Spring and Fall 8:30 to 5:00; Mid November to Mid February 8:30 to 4:00, weather permitting.

Quicke Tour Thru The Amish Farm & House

FRONT ROOM - Amish folding door-wall permits large room to be used for church, weddings, funerals, and special company. The plain wooden benches are hauled from home to home by horse and wagon. You will see the hand made Family Record, and paper flowers; bright colored napkins, calendars and pin cushions; "good" dishes for "show" on old sideboard and in the ever popular Dutch cupboard; and bright blue paint.

KITCHEN - This large room is the center of family life, especially in winter, when it is the only room heated. The old wood and coal cooking range provides the heat for the room, cooking, and hot water. You will note the foot treadle sewing machine and "fancy" scissors holder, jelly cupboard, shaving cabinet, dry sink, coal oil lamp with reflector, and "wood graining". Benches are needed to seat the large families around the table.

SUMMER KITCHEN - Here the "heavy" work is done - canning, cooking after butchering, apple butter boiling, etc. Inspect the "farmer's friend" (the low wood-burning stove built to hold the huge iron and copper pots); the cold water refrigerator (a unique "inside spring"); the butchering table and tools; the "snitz" drier; etc.

GIRLS' ROOM - The clothing hangs on pegs, is all home made, and Mother's and Daughter's dresses follow the same pattern. Bright colored dresses, when worn by infants and young girls, are covered by "sleeve" aprons. Capes and aprons are pinned to dresses of older girls and women. White organdy "prayer coverings" and large black bonnets are the only hats. See "the chest" of dishes and linens started for girls and for boys.

BOYS' ROOM - Bright colored shirts are worn to school and work, white shirts to Church; broad-fall black trousers are the same style for little boys, big boys, and men; the "good" jackets and coats are fastened with hooks and eyes, work coats may have buttons; the "mutzi" is the older man's Sunday coat; black felt hats have wide flat brims. The chimney from kitchen range helps to heat this room.

LOOM ROOM - For making home made woven cotton rag carpets, as in this room; note coal oil and gasoline lanterns.

PARENT'S ROOM - Note clothing, fireplace, chest of drawers, and flowers.

LOCAL HANDICRAFT CORNER - Quilts, pin cushions, booties, dolls, wool hooked and braided rugs, bonnets, tin can hassocks, etc.

FARM ANIMALS AND BUILDING TOUR - Now move outside to see the farm animals, fowl, and crops; explore barns, machinery and carriage sheds, blacksmith shop, furniture making shop, antique doll and Indian museum, water wheels, wind mill; Conestoga wagon and buggy rides, and so much more.
